## Technical Skills

---

**Languages and DataBases:** Javascript, Reactjs, Nodejs, SQL, MySQL

**Other Skills:** Git, GitHub, Framer motion, Bootstrap, TailwindCSS,

## Experience

---

### Petalnex Ltd.

**Dec 2024 – Mar-2024**

*MERN Stack (Intern)*

*Remote, Pakistan*

- During my internship at Petalnex Ltd, I received hands-on training in the MERN stack (MongoDB, Express.js, React.js, and Node.js). I actively contributed to real-world projects, including building a job portal platform with features like user authentication, role-based access, and job listings. I collaborated closely with the development team, participated in code reviews, and enhanced my skills in RESTful API development, frontend design using React.js, and backend integration with MongoDB. This experience helped me understand the full software development lifecycle and improved my ability to work in agile environments.

### CocoPixel

**Aug 2024 – Nov 2024**

*Frontend Developer*

*Remote, Pakistan*

- At Cocopixel, I worked as a Frontend Developer Intern where I gained hands-on experience in building responsive and user-friendly web interfaces using React.js, HTML, CSS, and JavaScript. I contributed to various design and development tasks, implemented UI components, and optimized website performance for better user experience. I collaborated with UI/UX designers and backend developers to ensure smooth integration and functionality. During this internship, I also enhanced my skills in version control using Git and participated in agile sprints, improving my understanding of modern frontend workflows and teamwork.

## Personal Projects

---

### E-Ustad: [Github link](#)

**Mar 2025- Present**

- Developing a web-based platform called **E-Ustad** that connects local skilled workers (e.g., electricians, plumbers, mechanics) with clients in need of their services. The platform features user authentication, role-based dashboards for clients and professionals, service listings, profile verification, and real-time communication. Built using the MERN stack (MongoDB, Express.js, React.js, Node.js) to ensure scalability, performance, and a user-friendly experience.

### Portfolio Website: [visit link](#)

**Dec 2024**

- Built a responsive portfolio using React.js to showcase my skills and projects. Used React Router, reusable components, and styled the site with Tailwind CSS for a clean, modern UI.

### ArtBay Gallery: [visit link](#)

**Nov 2024**

- Developed a dynamic and visually appealing online art gallery using HTML, CSS, and JavaScript. The website fetches and displays images from an API, showcasing a curated selection of artwork from around the world. Designed to be fully responsive, the site provides an engaging user experience across all devices.

## Education

---

### University of Karachi

**Feb 2021 – present**

*Bachelor of Science in Software Engineering*

*Karachi, Pakistan*
